Plans for the Rowland Heights Community Center Moving Forward

A new County facility has been designed specifically to provide recreation and community resources for Rowland Heights families! The new center will be located at Pathfinder Community Regional Park on the lower level. With the input from a Community Advisory Committee and community members, a design was developed to offer a variety of programs for all ages. The new 16,700 square foot facility has a development budget of \$18 million and will include a multi-purpose room with a stage that will accommodate banquet style seating for up to 300 people and performance style seating for up to 581 people. Also included in the design is an exercise studio, arts and crafts room, gallery, computer room, catering kitchen, new tennis courts, new basketball court, and expanded on-site parking. The new County-owned facility was designed by

Gonzalez-Goodale Architects and upon completion will be operated by the Los Angeles County Department of Parks and Recreation. To learn more about the new center, contact **(909) 594-6561**.

Redistricting Results in Changes to the Rowland Heights County Boundary Lines

www.redistricting.lacounty.gov

What is Redistricting?

Every ten years, the United States Census Bureau attempts to count every person in the country. After the last Census, the population of Los Angeles County was divided as evenly as possible into five supervisorial districts for the Board of Supervisors.

How was Redistricting Completed?

The Board is required to adjust the boundaries of any or all of the supervisorial districts following each census to ensure fair representation and ensure that districts are equal in population. Thousands of individuals and members of community groups participated in the redistricting process, including members of the Rowland Heights community, through community workshops, public hearings and online. The boundary lines were redrawn which resulted in the Fourth Supervisorial District representing all of Rowland Heights. See map on page 16.

Inclusive Skate Clinics!

Skate clinics, co-sponsored by Parks and Recreation and the Skate Connection, helps all skaters, but focuses on youth with disabilities. On Saturday, February 11, 2012, Rowland Heights Park hosted its first skating clinic for skaters with and without disabilities (see photos on page 5). There were nearly 100 skaters in attendance. Information on upcoming clinics can be found by visiting the Skate Connection's Facebook page at www.facebook.com/theskateconnection or contact Rowland Heights Park at **(626) 912-6774**.

Sheriff's Discuss Realignment with the Community

On Friday, March 16, 2012, the Rowland Heights Community Coordinating Council (RHCCC) heard concerns from residents about the Realignment (or transfer) of prisoners from the State to the Los Angeles County public safety system and early release programs. State Assemblymember Curt Hagman was joined by Chief James Lopez, Sheriff's Department, Captain Dave Halm of the Walnut/Diamond Bar Sheriff's Station and Dickie Simmons of the Fourth Supervisorial District, to answer questions. Details were discussed on how the program is designed to work, how the Sheriff's Department plans to implement their new assignments, and the affect it will have on local communities. For more information on Realignment, please contact Lieutenant Ken McWaid at **(323) 981-5300**.

Nogales Street Grade Separation

Waiting for a passing train at train crossings can be frustrating! The Alameda Corridor East Construction Authority (ACE), in conjunction with the Department of Public Works and the City of Industry, is completing design on a grade separation project on Nogales Street at the Union Pacific Railroad crossing. The project will enhance safety, reduce traffic congestion, and improve emergency response. ACE estimates that construction will begin mid-2012 and will take approximately three years to complete.

Citrus Tree Disease Detected in Rowland Heights

<http://www.cdffa.ca.gov/phpps/acp>

Toll-free pest hotline (800) 491-1899

A deadly plant disease called Huanglongbing (HLB), also known as citrus greening disease, has been found in your area and could be a death sentence for backyard citrus trees. The disease is spread by a pest called the Asian citrus psyllid. In order to save our citrus, you should:

- **Keep Homegrown Citrus at Home.** Your area is under quarantine. Reduce the spread of citrus diseases by not moving your homegrown citrus fruit or plants out of quarantine areas.
- **Inspect Citrus Plants Regularly.** Symptoms of the disease include yellow mottling of the leaves, lopsided fruit and excessive fruit drop. Psyllids and eggs are typically found on new shoots.
- **Check Citrus Plant Suppliers.** Only buy citrus plants from a reputable, licensed California nursery.
- **Avoid Fines and Penalties.** If you knowingly purchase citrus in violation of quarantine regulations and requirements, the penalties could range from \$1,100 to \$60,000 per violation.

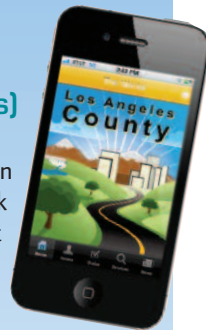

Visit SaveOurCitrus.org to learn more. If you think you have Huanglongbing or the Asian citrus psyllid, call the California Department of Food and Agriculture at (800) 491-1899.

The Safely Surrendered Baby Law allows an individual to safely give up an unwanted infant without arrest or prosecution as long as the baby has not been abused or neglected. No names need to be given when the baby is surrendered. Parents are permitted to bring a baby within three days of birth to any designated hospital or designated fire station in Los Angeles County. The baby will be placed in a pre-adoptive home while the adoption process gets underway.

New Law Requires Carbon Monoxide Detectors in Homes

<http://www.fire.ca.gov>

California State law now requires all homeowners to install carbon monoxide detectors in their homes. Carbon monoxide poisoning claims lives every year and sends more than 20,000 people to emergency rooms across the nation. It is a colorless, odorless gas that is produced when fuel such as gas, oil, kerosene, wood, or charcoal is burned. Heaters, fireplaces, furnaces and many appliances and cooking devices can produce carbon monoxide. Protect yourself by adding carbon monoxide detectors on every floor and outside each sleeping area.

Fire Captain Dean Miller

Rowland Heights

Fire Fighter of the Year

Time spent as a La Habra Heights Volunteer fire fighter and as a fire fighter for the Monterey Park Fire Department prepared Captain Miller for promotion through the Los Angeles County Fire Department. With 32 years of service, his assignments included Fire Fighter, Fire Fighter Paramedic, Engineer, Fire Prevention Inspector, and in 2000 he was promoted to Fire Captain.

Assigned to Fire Station 119 for the past three years, Captain Miller enjoys the peaceful surroundings of Rowland Heights and Diamond Bar. He takes pride in overseeing the training of paramedics at his station and has also worked with the Rescue Youth Program where firefighters serve as mentors to local at-risk youth. He noted several fires and rescues were memorable, but what stands out is the positive interaction with the public. When off duty, his priority is to spend time with family and friends. Miller has been married to his wife for 32 years and they have two sons.
